

2025 年度 第 42 回 大学院セミナー

2025 年 9 月 8 日

分 野 名	災害復興科学分野 責任者名（高村 昇）内線（ 7170 ）
演 題	原研研究集会：研究進展報告
講 師 等	Department of Global Health, Medicine and Welfare: Drs Makiko Orita, Hitomi Matsunaga and Yuya Kashiwazaki Biostatistics Section: Kenichi Yokota
概要	Department of Disaster Resilience and Science: Atomic Bomb Disease Institute has established reconstruction promotion bases in Kawauchi Village, Tomioka Town, Okuma Town, and Futaba Town in Fukushima Prefecture, where three faculty members are stationed to carry out risk communication based on radiation exposure doses of residents, while also collaborating with domestic and international institutions to develop educational and research projects. In this seminar, we are going to introduce the research activities in Fukushima, including recent topics including risk perceptions about re-usage of decontaminated soils. Biostatistics Section: Findings from Prof. Raisuke Shirabe's survey conducted immediately after the A-bombing, in commemoration of the 80th anniversary. Studies on the atomic bomb have reported a relatively high incidence of acute symptoms, even at below the threshold dose of 1Gy radiation, and are therefore assumed to include symptoms caused by non-radiation factors. In this study, to investigate the influence of external injuries and burns on symptom expression.
開催日時	令和7 年 9 月 24 日（水） 17 : 30～19 : 00
場 所	Zoom で行います。参加を希望される方（原研以外）は、個別に原研復興の高村（takamura@nagasaki-u.ac.jp）に御連絡ください。
備 考	本セミナーは原研研究集会として行います。

- ☐ 先端医療科学特論(基礎編)
- ☐ 先端新興感染症病態制御学特論
- ☒ 日本語(Japanese)
- ☒ 対面(Face to face)

- ☐ 先端医療科学特論(臨床編)
- ☒ 先端放射線医療科学特論
- ☒ 英語(English)
- ☐ オンライン(Online)
